Two worlds collide... literally.

Ever since a devastating magical war tore apart Ada Fletcher's homeworld, she and her family have lived undercover on the low-magic Earth, where their magic will go undetected. Stuck in a dead-end job in London, Ada has spent her life hiding her true identity while risking her life to help others escape the deadly battle between magic-wielders and the ruling tyrants. Until she loses her job, is chased by a rampaging monster, and is arrested as a prime suspect for a murder she had nothing to do with. It really isn't Ada's day.

Kay Walker, grandson of the Inter-World Alliance's late founder, expects to spend his first week as an Alliance employee hunting rogue monsters, not solving his supervisor's murder or questioning a strange, fierce young woman caught trespassing in the Passages between worlds. Killer or not, her abilities raise questions about the Alliance's history, and the closer he gets to the truth, the higher the body count rises.

The last thing Ada wants to do is help the infuriating Alliance guard who arrested her, but it soon becomes clear that the Alliance knows too much about Ada's homeworld — and her magic. More, in fact, than she knows herself. One thing's certain: she's not the only one keeping secrets, and trusting the wrong person might cost more than her life.

Very engaging story

By EC

Emma Adams' Alliance series is an interesting story for both science fiction and fantasy readers. There are parts of this story where you can tell the author is young (as in still developing her craft) but her stories are very memorable and the characters are engaging. If you need a new interesting series to read I would definitely suggest giving this a try.

Disappointing

By Kindle Customer

This book felt extremely slow to me. The main characters didn't even meet until around page 95. I feel like a good 100 pages could have been cut out; lots of filler paragraphs, descriptions, and repetition of the obvious. We end up hearing things multiple times from both character perspectives (i.e., history of why no one knows much about Enzar). Add to that two characters who should have been kicking butt but instead are making an unbelievable number of stupid decisions and/or getting caught and needing rescuing... Survival of the fittest clearly doesn't exist in this universe. I would have liked stronger characters and a faster plot.
