Disappointing

By Peter Kastner

I love this series, but this book was very disappointing. The writing was choppy and didn't make sense in areas that you had to read it again to understand what happened. And the ending ..... all I have to say is "what the heck was that! "

Not what I was expecting

By Kesha

I must agree with Mr. Kastner. I love this series, but I also found this one disappointing. The story did not flow as well as the others. The idea was good, but the execution could have been a little better.

Not Worth Reading - Or Spending Money On. . .

By Daniel Bowen

Adrian's Submission is the 4th book in the Quads of Alpha S Series. By the fourth book I expect more. More world building. More plot. More than a guy meeting up with his destined mates -- 80% sex and 20% story.

Adrian is straight. Yet by the end of this book he's begging for all four of his men and public sex. And that's all this story is as is the rest in this series - A human stranded on an alien planet and being 'claimed' by a group of men and brought into their lives as their sex slave. So then I wonder if these men have had sex with

each other while waiting YEARS to complete their group.

Yes, by the 4th book I expect more. So we're finally getting a bit of a plot in protecting the Shadowlands and soliciting help from the other tribes and banding together. Is that plot executed? Sort of. The plan is in motion and the book ends. And what about the recovered space shuttle? Won't that be used to go back and forth safely and bring supplies? What about changing the humans so they'll be stronger and survive longer?

I'm very disappointed in how this series turned out. So much promise and it all fell flat. I'd advise not to invest in it - Not worth the money for the page space unless you like reading m/m/m/m/m sex. Lots of it. Oh yes and little plot. - Dan's Wife
