Great read for kids

By Linda

This is really great biography for school-aged children. I've read it with my 7 year old son a couple of times now, and now when he hears or sees Barack Obama on tv, he feels like he knows a bit about him as a person. It's a short book, but is easy to read, and the pictures and illustrations make it very engaging.

A great introduction to Barack Obama for older children.

By S. Pasley

By older children, I mean the 6-8 crowd of the recommended ages 4-8. I think parts of this book are too advanced for even some kindergarteners, but it has great pictures and definitely enough information for an adult to paraphrase for the 4-5 year old child.

I bought this for my preschool to introduce the children to voting and presidents for upcoming election day. I won't be able to use this whole book verbatim, but definitely will use parts and paraphrase. I do think that a 1st grader will be able to understand it with an adult there to answer questions. Probably perfectly targeted towards the 2-3rd graders, not just for the language used, but for the concepts presented as well.
