### Series Overview

The wolves of Alpha Burke Chastain's pack family have escaped slavery to begin a new life. Despite their success in creating a home that was safe from their tormentor, their lives were filled with loneliness. Each man ached for his destined mate. They needed to find the path that would lead them to the miracle of love.

It was only when the goddess Lanaya appeared to Burke to tell him that a group of men from the hidden plane of Tuath needed their help that they would each find the man meant for him. Happiness would finally be theirs. Their mates would gift them with love, acceptance, and cubs.

Alpha Burke Chastain has his rules, and his rules were law. All must obey them for the safety of the pack family and their friends. His men respect and love him, but he has no tenderness in his life. Having a mate of his own was something he knew was never meant to be.

Dane Quinn is from the hidden plane of Tuath. He has escaped from the breeder stable where men were enslaved for the sole purpose of providing heirs to the highest bidder. He aches to find his true match and have a family with the man that he hoped to love.

With the guidance of the goddess Lanaya, Burke helps save the men of Tuath. He is drawn to Dane—the man who is destined to be his mate. He must put aside his alpha ways and understand that all rules are negotiable, or he will risk losing the man who will bring kindness, love, and cubs into his life.

### Highly Recommended Love Story

By Amazon Customer

Nice start to a new series. Great characters. I loved how strong they were and how they grew to allow love into their lives. It's good to see strong men who were capable of taking care of themselves who chose to be a part of a loving relationship. They make mistakes, lose their tempers, and are realistic as men who are figuring their way through a new romantic relationship. Even though this story is a wolf shifter paranormal, the story is really about men who just happen to be able to shift into wolves.

The male pregnancy aspect of the story is wonderful. The tenderness will melt your heart. The way they want and love their children is really nice. The way they are part of a bigger family of friends is also great. The progression of Dane's pregnancy and the delivery are well written. You can't help but love these guys.

If you like romantic love stories where the characters grow and learn and truly respect and love each other - this is a good story to read. I enjoyed it thoroughly. Looking forward to reading more in this series. Highly recommend.

A very good story...

By A. Gourdine

This was a very good story I really enjoyed it from beginning to end. Dane and Burke's story was such a good read I really felt for the both of them and all that they went through and how hard it was for them to open up and trust each other. The trauma and heartache that all of these characters went through was really something and you felt for each of them and want them all to find happiness. I also liked how the author gave you little snippets of the supporting characters leading them to have their own story. There were some questions left unanswered that hopefully will be answered in the next installment. This was my first time reading Ms Samuels work and I look forward to reading more.

I would have loved to get to know each and every one of ...

By Donnie

There were about 50 main characters introduced in the first 2 chapters and they switched POV randomly. I don't have issue with the fact that the author wanted to write about all these characters but my god there were so many in such a short amount of time. You can't get invested in the plot of the characters if you introduce someone new every other sentence. I would have loved to get to know each and every one of these characters and their stories but it needs to be in several books not just one.
