Are you a cat lover yet?

By J. Stone

This is a big volume with enough cat stories to make your head spin... Cats are not like dogs - they have their own rules and they demand respect from their owners. But they are also your good friends who will purr you to sleep if you treat them with the love that they demand. Most of the stories in this book are amusing and uplifting, some of them are also heartbreaking, but all of them are entertaining. If this book makes you yearn for more cats stories, you will be well served by the series of Why Some Cats are Rascals (Book 3)

Positively Inspirational

By C. Martin

Get this book if you're looking for some pick-me-up, inspirational stories. The book is divided up into ten chapters, with each chapter consisting of about ten short, inspirational stories. The ten chapters (categories) are:

- Words that Changed My Life -Overcoming Adversity
- Health Challenges -Attitude Adjustments
- Every Day Is Special -Silver Linings
- Role Models -Moving Forward
- Counting Your Blessings -Gratitude

As you can see, there's a pretty broad range of topics, and as I mentioned before, the stories are short, with most being around 4 or so pages each. I liked this, because I have kind of a hectic schedule most days, and don't get much time to sit around reading inspirational books. However with this book, you can read a couple of the stories in just a few minutes, and then take away some great messages to think about for the rest of the day. So if you're looking for a few quick words of inspiration now and then, I highly recommend checking this one out.

Wonderful Book

By Shirley Priscilla Johnson

I like animals, no as a matter of fact, I love animals. However, I haven't had a cat around me in many years, probably because my 4 German Shepherds would not particularly want the company. However, this did not stop the pure enjoyment I received from reading this book. As I began this read I was so amused that I actually laughed out loud at some of the antics of these furry little creatures. I had forgotten how playful, crafty, and loving cats can be.

This book is broken into 12 sections such as: Learning To Love "The Cat", Purr-fect Pets, and Saying Good-bye, to name a few. Under each section you will find stories that warm your heart and bring tears to your eyes, stories that bring out more than a giggle, and some stories that you will shake your head and say, "You have to be kidding?"

I loved this book, it was just as good as the one on Dogs that I finished not long ago. I'm telling you, if you love cats you will adore this book, and even if you don't you will still walk away never looking at them the same. I never really knew that cats could be such faithful companions. They definitely are not like dogs, and they certainly let you know that, but I have to admit they are a 'class act.' I'm so glad that I got to read this book and recommend it to all who want to know, just what is going on in the mind of your cat and why they do the things they do. Trust me, highly interesting and very entertaining, to say the least.

Great book! Fun and heartwarming read! Strongly recommended.
