a lovable, fun-filled adventure

By KidsReads

Evangeline Mudd might possibly be the luckiest girl in the world. After all, how many kids have parents who encourage them to swing from the dining room chandeliers or eat peanut butter and jelly sandwiches with their feet?

Evangeline's parents, Merriweather and Magdelana Mudd, are not your typical mother and father. The Mudds are primatologists --- people who study apes and monkeys --- and their specialty is the golden-haired apes of the Ikkinasti Jungle. The Mudds are impressed by the fun-loving and harmonious way of life the golden-haired apes follow and decide to raise their own daughter Evangeline the same way --- with a few exceptions like playing the piano.

The Mudds are as happy as can be living in their New England bungalow until a phone call from Dr. Aphrodite Pikkaflee changes everything. Dr. Pikkaflee is the most famous primatologist in the world and she needs help. A new family of golden-haired apes was discovered in the Ikkinasti Jungle and the Mudds are needed to observe them for two weeks --- without Evangeline.

The Ikkinasti Jungle is a dangerous place to bring a nine-year-old like Evangeline. There are wormy things that crawl between your toes and enter directly into your bloodstream. There are mosquitoes the size of hummingbirds. And worst of all, there are giant spitting spiders whose spit can blind you!

Instead of exploring the Ikkinasti Jungle with her parents, Evangeline has to stay with her father's awful third cousin twice removed and his ex-ballerina wife. She can't wait until the two weeks are over. But then her parents mysteriously disappear, and it's up to Evangeline to travel to the Ikkinasti Jungle and find them.

David Elliot's EVANGELINE MUDD AND THE GOLDEN-HAIRED APES OF THE IKKINASTI JUNGLE is adventure-packed, funny and fast-paced. Elliot's conversational writing style will remind readers of authors like Lemony Snicket and Roald Dahl. Andrea Wesson's black-and-white illustrations throughout the book also compliment the fun-filled flavor. Readers will fall in love with the courageous heroine

Evangeline. Will we be seeing her in a sequel? I hope so!

For kids moving on up from chapter reading to novels

By Midwest Book Review

Evangeline Mudd has enjoyed an unusual childhood, from learning to swing from rafters to eating sandwiches with her feet: much like the classic Pippi Longstocking, her unusual childhood leads to an unusual independence and resourcefulness early in life. When Evangeline's parents disappear while on a research trip, it's up to Evangeline to travel to the Ikkinasti Jungle and find them herself. *Evangeline Mudd And The Golden-Haired Apes Of The Ikkinasti Jungle* is not a chapter book, at 196 pages, but still most accessible to kids moving on up from chapter reading to full-fledged novels.

Evangeline Mudd, what a read!

By Reader

Evangeline Mudd starts her life differently than most do. Her parents, Dr. Merriweather and Dr. Magdalena want to raise Evangeline in a way most peculiar, like the golden-haired apes of the Ikkinasti Jungle.

Dr. Merriweather and Dr. Magdalena are some of the most well-respected primatologists in the field, therefore it is no wonder they are asked to go on an expedition to study more on the golden-hairs of the Ikkinasti Jungle. Evangeline cannot wait, until of course she finds out she can't go with them. It is at this point that this unique story takes several unexpected twists.

Evangeline is forced to stay with her third cousin, (twice removed), Melvin and his horrible wife India Terpsichore, but only for two weeks. However, two weeks turns into three, then four and soon it is finally discovered that Evangeline's parents must have run into trouble in the jungle.

Will Evangeline find her parents? Must she go alone into the Ikkinasti Jungle where spitting spiders abound? It is possible, but not without the help of none other than Dr. Aphrodite Pickaflee and a few other characters.

This book is filled with rich vocabulary and a fast-paced storyline. The variety of characters and different situations Evangeline finds herself in will keep you laughing until the end. The imagination in this story is superb! It is a must read!
