We are not alone. And we never have been.

For years we've been taught that human progress has been a long, slow climb from the primordial ooze to hunter-gatherers to empires. But what if that's only part of the story?

Bestselling author and legendary conspiracy researcher Jim Marrs now takes on his biggest subject: the history of humankind. Offering mind-blowing information that will radically alter the way we think about the world and our place in it, Marrs goes beyond the revelations of his classic *Alien Agenda*, interweaving science and authentic archaeological finds with provocative speculation to show how human civilization may have originated with nonhumans who visited earth eons ago . . . and may still be here today.

Marrs sifts through the historical, scientific, and cultural record, showing how numerous ancient texts and tablets tell of visitors from the stars colonizing the earth. From the flying vimanas of the Hindu Vedic literature and the flying shields reported by the Romans to the mysterious airships of the 1800s and the UFOs of today, he argues that someone other than us is still present on this planet. A wonderful compilation and researched anthology

By JJR

As a note of a new book referral, I am reading Jim Marr's latest book "*Our Occulted History*" and finding it a wonderful compilation or even an researched anthology of much of the Ancient Astronaut material - both pro and con.

I'm connecting with the Sumerian materials much more than the Atlantian chapters. I appreciate that he does add in some balancing of those who do not agree with this train of research. I like to know why and how the disagreements have been formed in "traditional" science thinking as it can be so obstinant on history like this - even with a large amount of physical evidence! "*Our Occulted History*" is well written and researched that I am finding it a valuable addition and consideration to this large, ever growing body of work. So much irrelevant writing has mis-referenced Sitchin in wrong and ignorant ways. Marrs does not. He shows he's dug into the deeper meanings of the Sumerian works that are the foundation for any ancient astronaut thesis. I've even learned some new things in this reading!

It's freshly out in the market with current references and discoveries. It's a golden star to Marr's journalistic research that continues to exhibit Marrs' breadth of knowledge and cravings to learn more!

Bravo, Jim! Thank you for an engaging read!!!

Jim Marrs

By Earthkeeper

I have read several books by Jim Marrs, all purchased through Amazon. "*Our Occulted History*" is by far the most up to date researched info on the origin of humanity. I received it quickly and began reading immediately. It's a book you can't just put down and get back to. It reads like a thriller. Needless to say, I'm ready to reread it.

Jim Marrs returns

By Amazon Customer

First of all, I am probably a little bias because I have read everything by Jim Marrs. In this one, he explains how the earth came into existence investigating whether visitors/Watchers came to earth in ancient history to interbreed with humans and possibly share technology with these ancient civilizations. If you've seen the entertaining show *Ancient Aliens* you will be familiar with some of the ideas presented here. Marrs does excellent research to back up his ideas, and it makes for one entertaining read. Are there aliens living among

us that are still here today? A cross breed hybrid race? I've always thought the Nephelim were interesting in the Bible, and how they fit into the bigger picture of things. If you like Marris, you'll love it if not it might open up your third eye.
