A SWEEPING HISTORICAL ROMANCE SET IN THE SCOTTISH HIGHLANDS BY NYT BESTSELLING AUTHOR NICOLE JORDAN

Katrine Campbell had come to the Highlands to rediscover her Scottish roots, hoping for some of the adventure her life in England had sorely lacked. But never in her wildest dreams had she imagined a raven-haired rogue as dangerous and as breathtaking as her kidnapper, Raith MacLean.

The only thing the young MacLean laird despised more than the traitorous Campbells was Katrine, who had the misfortune of being both English and a Campbell. Then Raith began to see that love caused more trouble than enmity when he lost his heart to his beautiful, unruly captive.

"One of my all time favorite writers, Nicole Jordan delivers romance like no one else. Captivating, enticing, and irresistible, her books are always on my must buy list."

—Sherrilyn Kenyon, #1 New York Times bestselling author

"Nicole Jordan charms and captivates."

—Jillian Hunter, New York Times bestselling author

"Nicole Jordan is one of my favorites."

—Cathy Maxwell, New York Times bestselling author

Classic Nicole Jordan

By RagingReader

This book was really good. It's one of Jordan's earliest pieces and this was reflected in the content of the book. However, this in no way takes away from how great the book was. The characters were likeable and fun to read about.

I especially liked the male hero, Raith. His character was developed so well and I was there with him every step he took. The emotional intensity and feelings between the main characters was electric. I recommend this book. Buy it!

Not high on my list

By Juanita Glass

Nothing irritates me any more than for the lead characters to constantly be pecking one another. Anger at one another, deliberately ignoring the fact that the other person (on both sides) has answered questions, made efforts, etc. How dumb can people be? I don't read books to be annoyed with the people I am supposed to admire. Why can they not joint together to fight an outside force? The premise is beyond irritating. I read this one because I really enjoyed the last book by Nicole Jordan and am so disappointed by this one. It did end well, and I did manage not to throw my Kindle across the room, but only barely!!!!~

Enjoyed it! Bought and read in one day

By Feehan5

I have read books by this author before, so her writing style is familiar. I enjoyed this book, read it in one day. It was .99 cents, and worth much more. This is a substantial story, not a short cheap read.

I liked the main characters, and how they slowly fell together. I also liked the secondary characters, and their relationships. I also have to say that i was so happy to see an epilogue. The ending was worth it.

If I had any dislikes, they were minor. I didn't give it 5 stars because I wish the main characters had spent a little more time together and had more conversations. The realization that they loved each other was a bit fast. Still, it wasn't so fast that it ruined the story like so many I have read.

I'm pretty picky about my authors, but I have never found one by this author that I didn't like. I recommend this book for anyone who likes historical romance. For this price, you can't beat it.
