Read Both Volumes

By Hal B

There is some confusion - there was for me anyway - about the second volume in this novel. It is as if the book was split in the middle and made into two volumes. Reading the first volume is like reading half a book.

If you don't know much about South Africa you will after reading this book. In the typical style of Michener, he weaves fiction with fact to present a fine picture of this part of the world.

The entire book (both volumes) is more than 1100 pages, lengthy by today's standards. Book length stops some from reading a novel. I don't know why. These rushed people are missing some of the best books ever written.

A great source of detailed

By Shibumi

Vol 2 Is a worthy sequel to Vol 1. Vintage Michener. A great source of detailed, unbiased, and insightful history of South Africa which captures the humanity, nobility, hubris, and the horrors of human endeavor. Understandably not as epic or with the scope of his novel The Source, but a grand work.

1 of 1 people found the following review helpful.

A timeless book about Africa

By Edward Pattillo

I read vol 1 and had to read vol 2, a great book about south africa. The people who helped make it a great

nation.
