I have undertaken to write this book because I am convinced that my experience as the United States Ambassador to Cuba was unusual in the sense that i lived through the Castro Communist Revolution, and I feel that I owe it to the American people to try to establish the fact that the Castro Communist Revolution need never have occurred. From this experience, i learned not only that our techniques of relations with Cuba were faulty but that the modus operandi for the determination of policy is not only inadequate but dangerous to the defense of our country. In Chapter 22 of this book, I summarize the conclusions reached from this experience.

I have written this book only as a footnote to history and to the science of government. It can have no other purpose.

## FACTUAL ACCOUNT OF HOW THE USA KILLED CUBA.

By Henry Pollack

Jaw dropping facts that detail America's involvement in bringing Fidel Castro to power in Cuba. Ambassador Smith's facts are unassailable, so we are only left with one question. Why would the US State Department, in collusion with the New York Times, knowingly place a Communist madman as the "Maximum Leader" of Cuba? Why would the US State Department not allow a true democracy, which was actually in play with the highly respected Cuban statesman Marquez Sterling and the Vatican? It is a fact that the US State Department knew Fidel Castro was a communist madman. This was all in Fidel Castro's file at our former embassy in Havana. All those files were burnt in the hours leading up to the Communist takeover in 1961. My father along with my paternal grandparents worked at the US Embassy from 1959 to 1961. So I know for a fact that Castro's file detailed his communist activities in the "Bogotazo", which Castro led in Bogota, Colombia in 1948. His file also detailed his violent criminal past along with his serious mental problems, exactly as our Ambassador stated in the book. This is not a book about propaganda or opinions. This is a testament of fact, which our Ambassador wrote for posterity. You would think it would be required reading for anyone claiming expertise on the Cuban "revolution". However his testimony seems to have faded into obscurity. So it would seem, all of these Cuba "experts" are only experts in sloganeering. They lack the FACTS IN THIS BOOK. I suppose it is not too surprising that this book is so hard to find, considering that it provides extremely inconvenient facts that detail an insidious and maybe even treasonous activity by individuals at the highest levels of government. Their legally questionable and morally reprehensible involvement in Cuban affairs has led to a 56 year dictatorship (and counting) the deaths of over one hundred thousand people, the complete and utter destruction of the Cuban economy and the total bankruptcy of the Cuban people. I cannot begin to calculate the damage they did to the citizens of Cuba along with all the victims of Fidel Castro's terrorist "revolutionary" activities in Latin America, Europe and Africa. I know the damage they did to my family. We lost everything we had. Stripped of all our assets, our nation, even old family photographs... this has been a complete cultural genocide. Great work by the "learned gentlemen" of the State department. Their wicked behavior caused the largest exodus in the history of the western hemisphere, the longest reigning tyrant in the history of the modern world and has left Cuba a devastated feudal society with a Secret Police that would be the envy of the Gestapo. READ THIS BOOK IF YOU CAN FIND IT..Alas the truth is much stranger than fiction. God only knows how far down the rabbit hole this deliberate and calculated placement of Castro and company runs. Perhaps now I understand why we could always easily invade Panama, Iraq, Vietnam, Korea, Dominican Republic, Serbia, (heck, we are even in the former Soviet Ukraine)... BUT NEVER CUBA. OPERATION IRAQI FREEDOM ...no problem! Operation Cuban Freedom?...unthinkable. THERE ARE EVEN FEDERAL LAWS FOBIDDING ANY ATTEMPT TO LIBERATE CUBA. Kennedy pacted with Khrushchev and Nixon codified it in the Anti Air Piracy Act. Perhaps the Bay of Pigs was not a fiasco after all, it may have been a quick and easy way to deliver to Castro as many young Cuban men who were ready willing and able to die for Cuban freedom. It also delivered the perfect excuse that led to the Kennedy-Khrushchev pact. Apparently Russia and the former Soviet Union never really cared about US aggression on their former republics or even Yugoslavia (a former Warsaw Pact member). Apparently the only US aggression that would ever lead them to mass nuclear suicide, is that little island 90 miles from the USA. It is so odd? No oil, no historical ties, no Russian enclaves, we do not even have any Borscht! Yet for Fidel and Cuba, who "allied" with the Soviets (mostly in sugar for oil trade) in 1960, yet by 1962 the Soviets were willing to commit mass suicide over Cuba. Only Cuba, mind you. Not Vietnam, Not the former Yugoslavia nor our taking almost the entire Soviet bloc into NATO. Apparently we are expected to believe that the only relic of the USSR that Russia would go to war with the US over, is the Kennedy-Khrushchev Pact! The Castro brothers could be eliminated as easily as other terrorists. They shot down unarmed US planes in 1996, perfect excuse to launch Operation Cuban Freedom! But I suppose you would have to actually want Cuban freedom in the first place. This book clearly demonstrates that we did everything in our power to ensure the success of Operation Cuban Tyranny.
