PRINT TOO SMALL

By Katherine Brown

July 8 2006

I am fifty eight and have just started to play piano via the chord method and I have perhaps a dozen fake books.

The print in this fake book is entirely too small and difficult

to read, making it a chore to use it. I should have

known better - it has 500 plus pages and oftentimes two songs

per page.

For those of you who have difficulty reading small print - I

wear reading glasses - stick with the Hal Leonard fake books which have approximately 200 pages and 100 songs. My favorites are: Easy Fake Book, Broadway Fake Book, First Fake Book, Simplified Fake Book, Easy 60s Fake Book, Classical Fake Book (new edition). They are easy to read and enjoyable. An improvement I would suggest would be a spiral binding.

The bigger the book, the more songs, the smaller the print.

I understand that this book is for all audiences, but I suggest that about 70% of the songs were minor hits.
